Some residual dust from the manufacturing process may be apparent. This will wipe off with a damp cloth. Examine all fasteners periodically and retighten where necessary. Care must be taken not to over tighten the fasteners.

**Weathering Effects.**

Like all natural timbers when subjected to the elements, under certain conditions, some surfaces may be susceptible to staining, moulds & mosses. Though unsightly these conditions will not cause rot within the material. Should staining occur it is suggested that the surface be cleaned with a mild detergent. Fading may occur if left in direct sunlight for prolonged periods of time.
